Description

Maxa-Alutechnika Ltd. was established in 2011 for the production and rental of aluminium tent systems. Our company is the exclusive Hungarian partner of RALOX SRL, one of the largest industrial company manufacturing aluminum extrusion profiles, operating in central and southern Italy. Our main business is the production of tents manufactured in Hungary.

Thanks to our cooperation, and to the high quality raw materials, we offer unique benefits for our customers, such as the increased capacity of our tents (compared to the traditional profile thickness, our tent frames are made of 2 mm thick rectangular aluminum tubing); and the close supplier relationship allows for rapid production and delivery deadlines, which also ensures the continuous supply of spare parts from stock.

Grill party with friends, birthday or any kind of family event? The tent provides shelter from hot sun rays and dripping rain, so you can stay outside longer!
