Offer

Gas springs - different typ

OBKOV produces a wide range of gas springs which can be applied in: the automobile industry, the production of buses, caravans, tractors, fork-lifts as well as in the additional equipment of various vehicles, the furniture industry, the production of various technical devices, etc.

Beside the standard production programme we also produce gas springs of special dimensions required by a customer. Our knowledge and experience can help our customers find the optimum solution concerning the application of gas

springs.
